Professional Summary

Results-driven Full Stack Developer with 2+ years of experience in building dynamic, responsive web applications using PHP (Laravel), WordPress, Python (Django), and modern frontend technologies. Proven expertise in custom theme/plugin development, API integration, and optimizing website performance. A quick learner with strong problem-solving skills.

Professional Experience

PHP Laravel / Frontend Developer

Lamp Media Tech | Dubai UAE | 03/2024– 03/2025

- Developed RESTful APIs and dynamic backend systems using Laravel.
- Integrated MySQL databases with Eloquent ORM and managed secure user authentication.
- Built responsive UIs using HTML5, CSS3, Bootstrap, JavaScript, jQuery.
- Collaborated with teams using Git and managed version control efficiently.
- Improved load time by 30% using lazy loading and performance best practices.

Python Developer

Grapesgenix Technical Solutions | Thrissur, Kerela | 01/2023 – 02/2024

- Developed multiple Django-based web applications for academic and mini-industry projects.
- Designed and implemented machine learning models for classification, prediction, and clustering tasks.
- Handled front-end integration with Django templates and Bootstrap.
- Created RESTful APIs for seamless data communication between front-end and back-end.
- Collaborated with students and professionals to deliver customized solutions within tight timelines.

WordPress Developer

Freelance

- Customized themes and created child themes based on client requirements.
- Built e-commerce websites using WooCommerce, and Elementor.
- Integrated custom forms using Contact Form 7 and added validation rules.
- Fixed design/layout issues using Additional CSS and browser dev tools.
- Used Visual Composer, Astra, and WooStify themes to build pages aligned with Figma mockups.
